

All IBS racks hold four bikes safely and with ease. Featuring: anti-sway fasteners, padlock loops, UV and weather resistant pads and fasteners. Finished with advanced long-life coatings. Supplied with fitting tool.

1-FOLD

Both support arms fold in one movement via a central hinge and locking pin. A simple yet strong folding rack system with a powder-coat finish for up to four bikes.

2-FOLD

The IBS hero product; smooth rotation with easy control and high-quality engineering enabling a smooth folding action.

2-FOLD PRO

All the features of the 2-Fold model above but with a hard-wearing, stylish chrome plated finish (see overleaf for examples).

2-FOLD HATCH

Strong and dependable. With foldable functions at the top and the base, 2-Fold Hatch provides easy access to your luggage space.

CARRIERS ENHANCING THE CYCLING EVOLUTION

IBS ACCESSORIES

MULTICLEAT™

As the IBS bike rack fastener of choice, the Multicleat system offers outstanding strength and versatility without the risk of damage to bike paint or frame. The marine grade, UV and weather resistant shock-cord is designed to provide outstanding service in all conditions. Multicleat's unique design makes them the perfect fastener for a huge number of uses: on the boat, commercial vehicle, motorcycle, farm, workshop, in fact anywhere that reliable, easy-to-use, shock-cord (bungee) systems can be used. You'll wonder how you ever managed without them!

IT'S SO INCREDIBLY QUICK AND EASY TO ATTACH YOUR BIKES SECURELY WITH INBUILT MULTICLEAT™ FASTENERS AND CORDS

CARRIERS ENHANCING THE CYCLING EVOLUTION

DESIGNED & BUILT IN NEW ZEALAND WITH PRIDE

INNOVATION

CARRIERS ENHANCING THE CYCLING EVOLUTION

Bikes keep changing and so do the demands on rack systems to keep pace with customers' expectations on safety and folding convenience. Inflight Bike Systems are built from the tow-ball up with pure Kiwi innovation, to exceed expectations in style and performance for all users.

DOWNHILL
MOUNTAIN
TRACK
ROAD
BMX
KIDS

ANY FRAME SHAPE

Inflight Bike Racks provide the total all-in-one transport system for every bike type and frame shape. Certified to 80kg, your IBS rack will effortlessly

hold up to four bikes of varying shapes, sizes and styles, over all terrain. And, with the unique IBS fastening system, your precious load will always arrive in pristine condition.

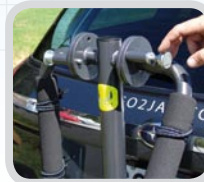

STYLE • FUNCTIONALITY

ALL ROUND EXCELLENCE

IBS is all about performance and reliability but that doesn't mean racks have to be ugly and ungainly. IBS carriers look so good, and because they fold down to integrate with the central pole, you can leave them on your vehicle without seriously compromising your urban image. Made in NZ to look great anywhere.

SAFETY FIRST, AND SPACE SAVING

Any piece of equipment is only as strong as it's weakest part. By incorporating premium quality pins, fasteners and padlock loops in every rack, IBS ensure there is no weakest part. Built tough to meet the demands of today's harshest user, and good news indeed for those serious about the welfare of four valuable bikes in transit.

Simple to use release and lock system

2-Fold Pro

2-FOLD HATCH

Specifically designed to cater for hatch-back and deep-faced rear door vehicles, the IBS 2-Fold Hatch model is a strong, strap-free carrier that will safely extend away from the arch of most vehicles while not allowing your cycles to hit the ground. The high tensile steel spring pin folding system allows access to the boot and you don't have to remove a thing!

FULL VEHICLE ACCESS

Inflight Bike Systems are convenience plus Smart, efficient, easy . . .
